

Arrow-Tech Dosimeters

W138

- *0-200 mR direct reading dosimeter*
- *Gamma and x-ray from 16-6100 KeV +/- 10%*
- *Meets ANSI specifications N13.5 and N322*
- *Barrel construction is of a durable, electrically conducting carbon fiber loaded liquid polymer*
- *All metal spring loaded clip is attached to barrel*
- *Can be charged with most available dosimeter chargers providing at least 195 volts*
- *Temperature range is between -20 degrees and 50 degrees celsius*
- *Humidity levels up to 90%*

- *Altitudes greater than 50,000 feet*
- *Shock, vibration and immersion tests meets Military and ANSI requirements*
- *Linear scale*
- *Length: 4.5"(12.4cm), Diameter: 0.6"(1.5cm)*
- *Weight: 1.0 oz (25 grams)*
- *All dosimeters come calibrated and includes calibration certification and decal*
- *Two year limited warranty from date of purchase*
- *Other model ranges available: W138 (0-200mR), W138S (0-2mSv), W500 (0-500mR/hr), 725 (0-5R), 730 (0-20R), 742 (0-200R), 746 (0-600R).*
